DOCKET FILE COPY ORIGINAL

Re: Request for Confidential Treatment Pursuant to 47 C.F.R. §§ 0.457 and 0.459;
Cintex Wireless, LLC Petition for Designation as an LBP
WC Docket No. 09-197

Dear Ms. Dortch:

Cintex Wireless, LLC (“Cintex”) hereby submits its Petition for Designation as a Lifeline Broadband Provider (“Petition”). One original and one copy are attached in both confidential and redacted form.

Cintex requests, pursuant to Sections 0.457 and 0.459 of the Commission’s rules, 47 C.F.R. §§ 0.457, 0.459, that the Commission withhold from any future public inspection and accord confidential treatment to the highly confidential, business sensitive information contained in designated portions of the Petition (the “Confidential Information”). All of the Confidential Information has been redacted from the version of the Petition filed electronically.

The Confidential Information constitutes highly sensitive commercial information that falls within Exemption 4 of the Freedom of Information Act (“FOIA”). Exemption 4 of FOIA provides that the public disclosure requirement of the statute “does not apply to matters that are ... (4) trade secrets and commercial or financial information obtained from a person and privileged or confidential.” 5 U.S.C. § 552(b)(4). Because Cintex is providing commercial information “of a kind that would not customarily be released to the public” in accordance with the application requirements in Section 64.606 of the Commission’s rules, this information is “confidential” under Exemption 4 of FOIA. See *Critical Mass Energy Project v. NRC*, 975 F.2d 871, 879 (D.C. Cir. 1992). Because this is a voluntary filing, if the Commission denies this request for confidential treatment, Cintex requests for its Confidential Information to be returned.

No. of Copies rec'd 0 + 1
List ABCDE

In support of this request and pursuant to Section 0.459(b) of the Commission's rules, Cintex hereby states as follows:

1. Identification of the Specific Information for Which Confidential Treatment Is Sought (Section 0.459(b)(1))

Cintex seeks confidential treatment with respect to the Confidential Information—all of which has been redacted from the version of the Petition filed electronically on the Electronic Comment Filing System.

2. Description of the Circumstances Giving Rise to the Submission (Section 0.459(b)(2))

Cintex is submitting information with respect to its Petition for Designation as a Lifeline Broadband Provider.

3. Explanation of the Degree to Which the Information Is Commercial or Financial, or Contains a Trade Secret or Is Privileged (Section 0.459(b)(3))

The information described above is protected from disclosure because the Confidential Information constitutes highly sensitive information about Cintex's finances and subscriber count. This information constitutes highly sensitive commercial information "which would customarily be guarded from competitors." 47 C.F.R. § 0.457.

4. Explanation of the Degree to Which the Information Concerns a Service that Is Subject to Competition (Section 0.459(b)(4))

Cintex provides prepaid wireless telecommunications for both Lifeline and non-Lifeline customers, and the market for such services is highly competitive.

5. Explanation of How Disclosure of the Information Could Result in Substantial Competitive Harm (Section 0.459(b)(5))

Disclosure of the Confidential Information would provide Cintex's competitors with sensitive insights related to Cintex's finances and subscriber count, which would work to Cintex's competitive disadvantage.

6. Identification of Any Measures Taken to Prevent Unauthorized Disclosure (Section 0.459(b)(6))

Cintex does not make the Confidential Information publicly available. This information would not be disclosed without a non-disclosure agreement or equivalent confidentiality obligation.

Ms. Dortch
October 24, 2016
Page 3

Redacted – For Public Inspection

7. Identification of Whether the Information Is Available to the Public and the Extent of Any Previous Disclosure of the Information to Third Parties (Section 0.459(b)(7))

Cintex has not made the Confidential Information publicly available.

8. Justification of the Period During Which the Submitting Party Asserts That Material Should Not Be Available for Public Disclosure (Section 0.459(b)(8))

Cintex requests that the information remain confidential for at least three years, because its disclosure during that time could give Cintex's competitors insights into how to compete with Cintex or prejudice it in transactions.

9. Any Other Information That the Party Seeking Confidential Treatment Believes May Be Useful in Assessing Whether Its Request for Confidentiality Should Be Granted (Section 0.459(b)(9))

Data subject to this request also would qualify for Exemption 4 of the Freedom of Information Act. Exemption 4 protects information that is (i) commercial or financial; (ii) obtained by a person outside of the government; and (iii) privileged or confidential. 5 U.S.C. § 552(b)(4).

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, self-addressed, postage prepaid envelope. If you have any questions or if I may provide you with additional information, please do not hesitate to contact me. Thank you for your assistance.

Respectfully submitted,

Lance J.M. Steinhart, Esq.

**CINTEX WIRELESS, LLC'S PETITION FOR STREAMLINED
DESIGNATION AS A LIFELINE BROADBAND PROVIDER**

I. INTRODUCTION

Cintex Wireless, LLC (“Cintex”), pursuant to Section 214(e)(6) of the Communications Act of 1934, as amended (“Act”), and Sections 54.201 and 54.202 of the rules of the Federal Communications Commission (“FCC” or “Commission”),¹ hereby submits this Petition requesting streamlined designation as a Lifeline Broadband Provider eligible telecommunications carrier (“LBP”) in all areas of the United States in which Cintex, through its underlying facilities-based carrier(s), provides 3G or LTE CMRS data services. Cintex seeks LBP designation only for purposes of participation in the Universal Service Fund’s (“USF”) Lifeline program, and will not seek High-Cost support.

¹ See also *In the Matter of Lifeline and Link Up Reform and Modernization, Telecommunications Carriers Eligible for Universal Service Support, Connect America Fund*, WC Docket No. 11-42, WC Docket No. 00-197, WC Docket No. 10-90, Third Report and Order, and Order on Reconsideration, FCC 16-38 (rel. Apr. 27, 2016) (“Lifeline Modernization Order” or “Third Report and Order”).

As more fully described below, Cintex satisfies the requirements for designation as an LBP. Grant of Cintex's request will promote the public interest by providing low income Americans with high quality wireless and mobile broadband services at discounted Lifeline rates, advancing the Commission's goal of making broadband service more affordable and accessible to those who can least afford it.

II. BACKGROUND

A. Company Overview

Cintex is a Delaware limited liability company with principal offices located at 11565 Old Georgetown Road, Rockville, Maryland, 20852.² Cintex has been designated as an ETC in Arkansas, Maine, Maryland, Rhode Island and West Virginia. Pursuant to existing agreements, Cintex provides prepaid wireless telecommunications services to consumers by using the Sprint Spectrum L.P. ("Sprint") and T-Mobile USA ("T-Mobile")³ (collectively, the "Underlying Carriers") wireless networks. The Underlying Carriers are nationwide carriers that provide wholesale capacity on their wireless networks to resellers like Cintex. Cintex purchases wireless services (for voice minutes, text messages, mobile data, etc.) from its Underlying Carriers on a wholesale basis, packages those services into Cintex's own service plans and pricing, and bundles the wireless service with Cintex's handset selection, mobile applications, marketing materials, web interface, and customer service to produce finished wireless service offerings to sell to end-user customers.

Cintex's prepaid wireless services are affordable, easy to use, and attractive to low-income and lower-volume consumers; and Cintex is ready to offer broadband Lifeline services that will meet

² Cintex was organized in the State of Delaware on June 29, 2007.

³ Cintex accesses the T-Mobile network through the T-Mobile aggregator, Prepaid Wireless Wholesale, LLC.

the Commission's new minimum service standards and equipment requirements. When used with a voice-capable device, Cintex's broadband Lifeline services will provide consumers with access to emergency services. By providing affordable wireless and mobile broadband plans and quality customer service to consumers who are otherwise unable to afford them, or were previously ignored by traditional carriers, Cintex will expand the availability of wireless and mobile broadband services to many more low-income consumers, which is one of the principal objectives of the universal service program established by Congress and codified in Section 254 of the Act, 47 U.S.C. § 254.

Cintex does not conduct credit checks or require customers to enter into long-term service contracts as a prerequisite to obtaining wireless service. Cintex is dedicated to quality customer service and care. Lifeline customers can reach the Company's Customer Service department via phone, mail or e-mail.⁴ Cintex's Customer Service department is available by phone Monday through Friday 9am-8pm EST or Saturday and Sunday 10am-7pm EST.

B. Service Area

Cintex requests LBP designation nationwide, subject to the coverage of its underlying facilities-based carrier(s). A list of zip codes in which Cintex currently has network coverage for mobile broadband service at 3G speeds or greater is attached hereto as Exhibit 2. Where there is overlap in coverage between the requested LBP service area and the service area of Cintex's state ETC designations, Cintex will continue to meet the obligations of its ETC designations; where there is no overlap in coverage, Cintex understands that the LBP designation is limited in scope to support for BIAS service offerings.

⁴ Cintex will soon add chat functionality on its website, providing customers another convenient way to access customer support.

C. Cintex Qualifies for Expedited Review

As certified by Exhibit 1 attached hereto, Cintex has offered broadband Internet access service (“BIAS”) to the public for at least two years before the date of the instant filing, and Cintex serves at least 1,000 non-Lifeline customers with voice telephony and/or BIAS as of the date of this filing. Therefore, Cintex qualifies for expedited review pursuant to 47 C.F.R. §54.202(d)(1), and requests that the Commission allow Cintex’s LBP designation to be deemed automatically effective within sixty (60) days of filing.

III. CINTEX SATISFIES THE REQUIREMENTS FOR DESIGNATION AS AN LBP

As detailed below, Cintex satisfies each of the requirements of Section 214(e)(1) of the Act and Sections 54.201-54.202 of the Commission’s rules.

A. Cintex is a Common Carrier

Cintex is a resale-based CMRS provider, and thus is a common carrier.⁵

B. Cintex Offers the Supported Services

Cintex will provide mobile broadband Internet access service as defined by 47 C.F.R. §54.101(a)(2), of at least 3G service and with a data usage allowance of at least 500 megabytes per month. As permitted by the *Third Report and Order*, Lifeline supported broadband services

⁵ *Implementation of Sections 3(n) and 332 of the Communications Act, Regulatory Treatment of Mobile Services*, GN Docket No. 93-252, Second Report and Order, 9 FCC Rcd 1411, 1425 ¶ 37, 1454-55 ¶ 102 (1994) (wireless resellers are included in the statutory “mobile services” category, and providers of cellular service are common carriers and CMRS providers); 47 U.S.C. § 332(c)(1)(A) (“mobile services” providers are common carriers); *see also PCIA Petition for Forbearance for Broadband PCS*, WT Docket No. 98-100, Memorandum Opinion and Order and Notice of Proposed Rulemaking, 13 FCC Rcd 16857, 16911 ¶ 111 (1998) (“We concluded [in the *Second Report and Order*] that CMRS also includes the following common carrier services: cellular service, ... all mobile telephone services *and resellers of such services.*”) [emphasis added].

may also be combined with unsupported services, such as text or voice, but in all cases the service will meet the minimum requirements for Lifeline supported broadband service.⁶

C. Cintex Will Advertise the Supported Services

Cintex will advertise the availability and rates for the services described above using media of general distribution as required by 47 C.F.R. §54.201(d)(2) and in accordance with the requirements set forth in the *Lifeline Reform Order*.⁷ As the FCC recently clarified, “‘media of general distribution’ may include web advertisements reasonably calculated to reach the relevant community, mail, email, or other text-based methods of advertising.”⁸ Cintex’s Lifeline advertising materials will comply with section 54.405(c) of the Commission’s rules.

D. Cintex Will Comply with Applicable Service Requirements

In accordance with 47 C.F.R. § 54.202(a)(1)(i), and by the attached certification, Cintex certifies that it will comply with the service requirements applicable to the support that it receives, including future additions to or amendments of the Lifeline program rules. Cintex’s Lifeline supported broadband services will all meet the minimum service standards set forth in 47 C.F.R. § 54.408 for mobile broadband Internet access services, including for service speed and data usage allowance, and Cintex will not impose an additional or separate tethering charge for mobile data usage below the minimum standard. Cintex’s devices provided to Lifeline consumers will all be WiFi-enabled, and a certain percentage of devices will be hotspot-capable, in accordance with the

⁶ Cintex will continue to offer Lifeline supported qualifying voice services in those areas in which Cintex has received a state ETC designation, consistent with the terms of that designation.

⁷ See *In the Matter of Lifeline and Link Up Reform and Modernization, Lifeline and Link Up, Federal-State Joint Board on Universal Service, Advancing Broadband Availability Through Digital Literacy Training*, WC Docket No. 11-42, WC Docket No. 03-109, CC Docket No. 96-45, WC Docket No. 12-23, Report and Order and Further Notice of Proposed Rulemaking, FCC 12-11 (rel. Feb. 6, 2012) (“*Lifeline Reform Order*”) at Section VII.F.

⁸ See *Lifeline Modernization Order* ¶ 364.

requirements and schedule set forth in 47 C.F.R. §54.408(f)(3). Because Cintex seeks LBP designation in order to provide supported services only under subpart E of Part 54 of the Commission's Rules, submission of a five-year plan under 47 C.F.R. § 54.202(a)(1)(ii) is not required.

Moreover, Cintex understands that as an LBP it will be subject to Lifeline program rules, including rules regarding subscriber eligibility verification, certification and recordkeeping, and auditing requirements, and Cintex agrees to comply with all such applicable rules. Indeed, as an experienced Lifeline provider, Cintex is already equipped to comply with Lifeline regulations. As part of certifying and verifying consumer eligibility in accordance with Commission rules, Cintex will check applicants against the National Lifeline Accountability Database prior to initiating service and will utilize the National Lifeline Eligibility Verifier, once available. Cintex will also comply with the annual certification and reporting requirements and the Commission's measures to prevent waste, fraud and abuse of Lifeline services. Because Cintex is responsible for the actions of all its personnel, whether employees or agents, and a Cintex employee is responsible for overseeing and finalizing every Lifeline enrollment prior to including that customer on an FCC Form 497 for reimbursement, Cintex always "deals directly" with its customers to certify and verify customers' Lifeline eligibility.

E. Cintex is Able to Remain Functional in Emergency Situations

In accordance with 47 C.F.R. §54.202(a)(2), Cintex certifies that it the ability to remain functional in emergency situations. As described herein, Cintex purchases wireless network services, including BIAS, on a wholesale basis from underlying facilities-based carriers that are themselves subject to various regulatory requirements to remain functional in emergencies. Through these underlying carriers (currently Sprint and T-Mobile), Cintex provides to its customers the same ability to remain functional in emergency situations as currently provided by

the underlying carriers to their own customers, including access to a reasonable amount of back-up power to ensure functionality without an external power source, the ability to reroute traffic around damaged facilities, and the capability of managing traffic spikes resulting from emergency situations.

F. Cintex Will Satisfy Consumer Protection and Service Quality Standards

In accordance with 47 C.F.R. §54.202(a)(3), Cintex commits to satisfying applicable state and federal requirements related to consumer protection and service quality standards. Specifically, Cintex certifies that it will comply with the Cellular Telecommunications and Internet Association's (CTIA) Consumer Code for Wireless Service and any amendments thereto.

G. Cintex is Financially and Technically Capable

Cintex is financially and technically capable of providing Lifeline-supported services in accordance with 47 C.F.R. §54.202(a)(4). Cintex has been providing wireless telecommunications service since 2008, and began providing Lifeline service in 2011. Cintex continues to provide service to both Lifeline and non-Lifeline customers. Cintex has not been subject to ETC revocation proceedings in any state. Cintex is financially able to provide Lifeline-supported services and will not rely exclusively on USF disbursements to operate.⁹ In the event that USAC ceases disbursements for a period of time, the Company will still be able to provide service to its customers. The Company will continue to rely on its successful business model and service offerings to sustain and grow its business, independent of USF disbursements that provide discounts for qualifying Lifeline subscribers. Furthermore, the senior management of Cintex has great depth in the telecommunications industry and offers extensive telecommunications business technical and managerial expertise to the

⁹ See attached Exhibit 3 for financial statements, which are confidential and proprietary.

Company.¹⁰ Cintex will be providing resold wireless service, and therefore will also rely upon the managerial and technical expertise of its underlying carrier(s).

H. Cintex's Proposed Broadband Internet Access Service Plans

Attached hereto as Exhibit 5 is a table of Cintex's proposed BIAS rate plans, showing that Cintex will provide Lifeline customers with a data-capable device and at least 500 megabytes (MB) of guaranteed data at 3G or greater speeds each month. Upon designation as an LBP, and once Lifeline broadband support becomes effective, Cintex certifies that it will advertise and provide Lifeline rate plans that meet applicable minimum service requirements for mobile broadband set forth in 47 C.F.R §54.408(b)(2).

Cintex will initially provide Lifeline customers the choice of one of the following BIAS Lifeline Plans:

	Plan 1	Plan 2	Plan 3
Data	500 MB	1 GB	2 GB
Voice Minutes	100	500	500
Text Messages	Unlimited	Unlimited	Unlimited
Price to Lifeline Customer	\$0.00	\$12.00	\$23.00

As mentioned above, Lifeline customers will receive a WiFi-enabled device (i.e. Smartphone), which may also be hotspot-capable, and are guaranteed to receive at least 500 MB of data at 3G or greater speeds each month. Calls to Cintex customer service are free, and calls to 911 emergency services (or texts to 911, where available) are free regardless of available minutes or activation status. Cintex provides access to Caller ID, Call Waiting, Call Forwarding, 3-Way Calling, and Voicemail features at no extra charge, and voice minutes may be used for domestic long distance at no additional cost. Additional airtime and data will be available for purchase via phone, online, or through Cintex's android application, initially at the rates shown on Exhibit 5.

¹⁰ See attached Exhibit 4 for key management bios.

IV. DESIGNATION OF CINTEX AS AN LBP WOULD PROMOTE THE PUBLIC INTEREST

Whether because of financial constraints, poor credit or sporadic employment, low-income consumers often lack access to the benefits of broadband service. The FCC recently called the Internet “today’s vital communications network...the most powerful and pervasive platform in our Nation’s history.”¹¹ The Commission noted that “Only half of all households in the lowest income tier subscribe to a broadband service and 43 percent say the biggest reason for not subscribing is the cost of the service,” and “Of the low income consumers who have subscribed to mobile broadband, over 40 percent have to cancel or suspend their service due to financial constraints.”¹²

Designation of Cintex as an LBP would allow Cintex to provide discounted Lifeline supported broadband service to these low income consumers nationwide, providing them with a way to obtain broadband internet access of 500 MB at no charge, and with the ability to add additional voice service or data. This promotes the public interest by making broadband service more affordable and therefore more accessible for low-income consumers. Providing Cintex with the authority necessary to offer discounted broadband Lifeline services to those otherwise unable to afford broadband service promotes the public interest.

V. ANTI-DRUG ABUSE CERTIFICATION

Cintex certifies that no party to this Petition is subject to denial of federal benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988.

¹¹ See *Lifeline Modernization Order* ¶ 1.

¹² See *Lifeline Modernization Order* ¶ 2.

VI. CONCLUSION

As discussed above, designation of Cintex as an LBP accords with the requirements of Section 214(e)(6) of the Act and is in the public interest. For all of the foregoing reasons, Cintex respectfully requests that the Commission designate Cintex as an LBP.

Respectfully submitted,
